

NEW: Materials for Heritage Language Teaching (HLT)

The centre IPE of the Zurich University of Teacher Education will publish a series of materials for heritage language teaching (project management: Prof. Dr. Basil Schader). The texts will be available in English, German, Albanian, Bosnian/Serbian/Croatian, Turkish and Portuguese. The materials were designed for teachers who want to improve the quality of their heritage language teaching and to create a better connection to regular teaching. They are also addressed to all the institutions responsible for HLT in the countries of origin and immigration. The materials include 6 volumes: A hand- and workbook

(approx. 185 pages). It conveys the key points of current pedagogy, didactics and methodology and illustrates them with practical examples from HLT. Five booklets with didactic suggestions (64–88 pages each). Here, teachers are offered suggestions for key areas of heritage language teaching, which are practical, easy to apply and have already been tested in the classroom.
